

The ***Heads of the Valleys strategy-“Turning Heads”*** is moving into the next stage of implementation, harnessing the combined resources of Public, Private and Third Sector towards delivering a three year investment plan, as part of a 15 year strategy for change.

Early progress has highlighted the potential opportunity and added value to be obtained through active involvement of the Sector in programme delivery.

The conference seeks to bring together key stakeholders from across the sub region identify key action areas covered by the strategy, and consider the priorities for attention in a shared investment plan for the next three years.

Your specialist knowledge of the issues we face and your organisations existing approach will be central to the success of these sessions with the outcome from the day informing the investment plan for the Heads of the Valleys Partnership over the next three years.

Please confirm your attendance in writing to me at 16a Market Square, Brynmawr, NP23 4AJ.

Agenda outlining the day to be forwarded in due course.

Debbie Smith & Judith Pearce
