

## Commissioning Policy Development Project 2009-2011

Harnessing the potential of  
the third sector

## Purpose

To develop a funding and commissioning/service planning and procurement code of practice and toolkit for public sector and third sector organisations in Merthyr Tydfil and Rhondda Cynon Taff.

The code of practice and toolkit will lead to:

- Improved commissioning and procurement arrangements
- More citizen centred public; provided on a “who does what best”; offering more choice to people
- Better information and support for public sector officers and third sector organisations in Merthyr Tydfil and Rhondda Cynon Taff

## How you can help - Added Value

A challenge for community and voluntary organisations can be to describe and quantify the value of the activities and services they offer. By showing the value of the services you provide, you will be in a better position to attract funding.

We would like you to help us collect evidence of the value provided by the Sector by completing the 10-point ‘**Value Added Facts**’ questionnaire, which you can download from the Interlink website. Please return the form by e-mail to:
