

Making Change Happen

Getting involved

Making the Connections

We can help get you started.

Lots of people make decisions on our behalf. They include staff in the Council, Health Board and the Police, as well as our politicians.

They need to make sure they make the best decisions they can to improve local services. One of the key ways they do this is **by talking to us in the community and the voluntary sector**. They want to know what we think. Interlink helps to make this happen.

The Community Strategy is planned through a wide range of groups. On these groups sit people who are there **to represent you and your views**. These include strategic partnerships for Children & Young People; Health, Social Care & Well-being and the Local Service Board.

Give us a call to find out more and get involved.

www.interlinkrct.org.uk

Active Communities

Key groups that support this work are our Networks and Forums.

These include our:

- Active Communities Network
- Health, Social Care and Well-Being Forum
- Children, Young People and Families Development Network
- Mental Health Forum

Want to have your say? Join one of our groups or contact one of the community and voluntary sector representatives (see our website!)

Have an idea? The best ideas come from local groups and communities. Join a local group and get involved in your community.

We are here to help - contact us to find out how you can **get involved**, make **your voice heard** and make **change happen!**
