

## The Voluntary Sector Making A Difference

## Making the Connections

- Join Interlink's Voluntary Sector Forum and have your say about the planning of public services.
- Talk to your voluntary sector representatives. They will take your views to the key strategic partnerships in Rhondda Cynon Taff. These include the Local Service Board and Community Safety Partnership.
- Join our other forums and find out about health, social care and well-being, specific mental health services and services for children and young people.

## Making Change Happen

Politicians, planners and local partnerships regularly make decisions on our behalf. As service users and active citizens, let us tell them what we want.

Interlink has a number of opportunities for service users to get involved – through our mental health service user project and through focus groups.

Contact us and find out how **you** can make change happen!
